

Computing For Magicians - Evernote

I make my living â€” if you could call it that â€” from computers. I know and like good software. I love software that is good and free!

One of my most indispensable programs is Evernote. If you use the Internet, at all â€” you need this program. You can save anything you see â€” take notes â€” create todo lists â€” capture images â€” all with just a couple of clicks.

In looking over the things Iâ€™ve saved over the years in Evernote, I most enjoy the pre-censored Cafe threads. Once in a while â€” frequently actually â€” you see a thread that you know is going to get either trashed or *revised* to the point it no longer retains ANY flavour of the original.

Trust me on this and try it.

Take care.....
