

Why is Bill Gates RICH!!!!

 Damn if I know. I've been in the process of converting a machine to Vista. What a nightmare.

I spent most of the weekend and today just trying to get it to behave as well as XP. I see No - ABSOLUTELY NO - reason to buy this thing. There are a couple of cool visual effects and it's a little more intelligent in some processes, but that, in no way, makes up for the incredibly lame security implementations.

By the way, just in case you think the ol' i/m is crashing a little ahead of schedule, I'm doing this as a learning experience. I have customers that use it and I need to have a working knowledge.

Take care.....

Live like you're going to die tomorrow. Learn like you're going to live forever.
