

Silver Shafter

I missed an important anniversary recently. It was just over 10 years ago when I reviewed Steve Brooks' masterpiece, Silver Shifter - the magic trick destined to change the way we perceive our universe and our very being.

For those that may be interested (and I strongly suggest it) you can find the original post at <http://intenselymagic.com/2005/09/18/fool-me-once/>. Especially if you are unfamiliar with this, I think you might find it of interest. For some additional historical perspective, these posts on [Genii](#) are priceless.

Actually, Brooks is the one that should be laughing. He's got my 50 bucks and I've got jack squat. I kind of wish I had that thing on my shelf as a reminder of a lot of things. Unfortunately, I didn't keep it. Maybe he'll bring it back as part of a new *Deluxe* line.

Take care...
